ENDPOINT MANAGEMENT AND PROTECTION PROJECT

&

WI-FI UPDATE

Georgia Tech

CREATING THE NEXT®

Georgia Tech

What is the scope of the project?

- Select standard endpoint management and protection platforms

- Build endpoint management team to provide fully supported services to campus

- Deploy management and protection services

- Enroll campus endpoints

What is the value?

- Common platform will allow for standard management practices across campus

- Standard management practices will allow IT support professionals to more effectively support users and partner across the campus IT community

- Endpoint management and protection systems will greatly improve security posture and is required for regulatory compliance (e.g. NIST 800-171)

- Central management systems will allow Cyber Security to automate a significant portion of NIST and other regulatory reviews

CREATING THE NEXT®

CAMPUS WI-FI UPDATE

- By the week of August 6th, **GTwifi** will be retired

- Georgia Tech has adopted **eduroam** as the standard Wi-Fi network

- Switch now!

- Instructions are here: https://b.gatech.edu/eduroam

- Or here: **faq.oit.gatech.edu and type "eduroam" in the search bar.**

- Additional help available by contacting the Service Desk at 404-894-7173 or support@oit.gatech.edu
